

PROJECTS

Video News Portal	AttainU	May 2019
<ul style="list-style-type: none">• BTC - Video News Portal Bring The Change Video Demo Source Code .• Bring The Change is a online video news portal where users can upload videos anonymously and raise their voice against corruption, crime or any wrongdoings.• Designed the front-end part of the application which helped users to navigate throughout the application without any hassle.• Implemented user comments feature using Ajax which helped users to post and load comments without reloading the page.• Developed the back-end architecture using Node Js , MongoDB as database to store user data and Cloudinary as external file storage system for uploaded videos and images and connected the systems together afterwards which resulted in 1.5x faster resources loading time.• Reduced lines of code by 25% by leveraging multiple database queries in single route instead of multiple routes which also boosted application loading speed upto 2x times.		

LANGUAGES & TECHNOLOGIES
